

CP series
Precision
High-speed Press

JAPAN JIS
Super Grade
Accuracy

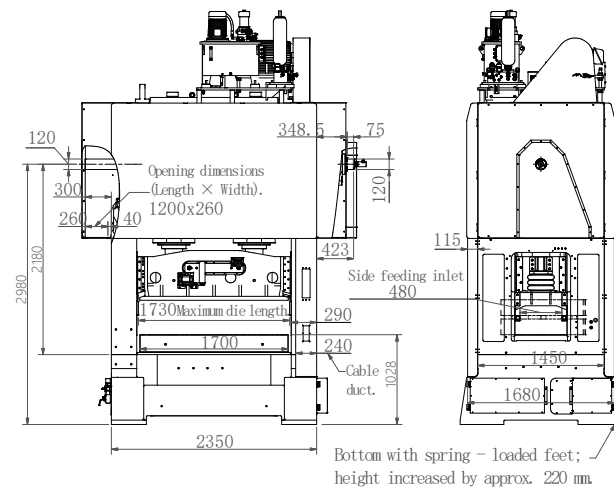

Function Features

- Suitable for high-speed metal stamping and forming of food-grade bottle caps.
- Equipped with a 1700 mm bolster, providing a usable space of up to 1750 mm — allowing for wider material usage in the future and reducing slitting costs. The slide stroke can be freely adjusted.
- Shut height is fully customizable.

Can Making

CP1-150

Standard Accessories

Accessories	Standard
Inverter	●
Die height indicator	●
Electric die height adjustment	●
Inching mode	●
MaKui Reverse Unit	●
Dynamic balancer	●
Hydraulic slide locking device	●
Electrical Control Box	●
Centralized lubrication system	●
Pneumatic rod-type C&B	●
Electronic cam switch	●
Vibration isolation mounts	●
Oil cooler	●

Technical Parameters

Model		CP1-150
Capacity	Ton	150
Stroke	mm	35
Speed	S/PM	500
Die-Height	mm	customized
Bolster Area	mm	1700*1000
Slide Area	mm	1700*700
Slide Adjustment	mm	customized
Bed Opening	mm	customized
Main Motor	HP/kW	50/37
Gross Weight (approx.)	Ton	40000
Lubrication		Automatic Lubrication
Speed Control		Inverter
Clutch & Brake		Air & Friction
Auto Top Stop		T.D.C
Shock Absorber		Damper/Spring Damper

Accessories	Standard
PLC HMI control system	●
Counter	●
Mis-feed detection circuit and connector	●
Scissor-type connector (24VDC)	●
Single air blow	●
Power socket	●
Air source connector	●
Single air blow	●
Work light	●
Tool box	●
Operation manual	●

Accessories	Optional
Photoelectric Safety Device	●
